Experience

UX design intern - B2B research-focused multimodal chat assistant for Ipsos

Goinvo → / December 2023 - Present

- Contributed to UX design for a conversational AI research assistant powered by LLM. Incorporating explainable AI (XAI) strategies throughout the product. Guiding 8 features of the product from **sketches, wireframes, prototypes, and user testing** in 6 weeks.
- Established a **design system** from scratch for two products, creating a versatile component library to streamline the design-to-dev process.
- Actively engaged in over **6 usability** testing sessions, utilizing interactive prototypes, leading to an impressive **85%** overall satisfaction rate for new features. Compiled a comprehensive usability report for the client to guide future feature enhancements.

UIUX design Intern - Desktop product design for a gamified platform (Shipped)

SchoolCraft / July 2023 -Sept 2023

- Led the design of 3 design milestones: onboarding flow, interactive map, and profile page. Elevating user experience from lo-fi wireframes to hi-fi interactive prototypes for stakeholder presentation.
- Collaborated cross-functionally with PMs and engineers to develop a fully functional demo in 8 weeks with a comprehensive **component library** and design system.
- Conducted usability testing and evaluated feedback from 10+ user testing sessions, implementing UX enhancements that garnered a **93% expression of strong interest.**

Creative intern - Branding and B2C Web experience design

Landor & Fitch → / May 2023 -July 2023

- Collaborated with brand strategists to design end-to-end web experiences for Accenture's rebranding initiative, designing **10+ website wireframes.**

UIUX design Intern - Mobile app design (Shipped) →

BreakFree → / December 2022 -March 2023

- Redesigned the end-to-end experience of BreakFree iOS app. Focused on revamping the **user flows and wireframes**. Achieved a **90% user satisfaction rate** with usability surveys with 20+ users, backed by a **50%** surge in App Store ratings.
- Collaborated with a cross-functional team, create design solutions in relation to business goals. Showcased high-fidelity prototypes to stakeholders, reached the **50,000 funding** business goal, and captured the interest of **4 major companies** for funding.

Visual Design Intern - Web & Identity design for game studio (Implemented)→

Tencent Timi Studio Group / July 2022 -September 2022

- Refined TIMI overseas studios' visual design systems, enhanced the studio's appeal for 200+ new team members. Create website visual design for Team Kaiju, implemented.
